

FULLY HUMAN

LIFE AS GOD DESIGNED

2026 CCEF National Conference
October 16–18 | Virginia Beach, VA

What does it mean to be human? Everywhere you look, people are wrestling with this question. The message of our fragmented world is clear: Being human isn't enough. But what if being human—fully, honestly, joyfully human— isn't a problem to outgrow but a gift to receive?

Join us this October 16–18 where we'll explore together what it means to live according to God's beautiful, wise design and how to help others embrace it, too. We'll learn from the person and work of Christ, who doesn't strip away our humanity but makes us fully human again.
